

## Documentation of project

### #SomeNote

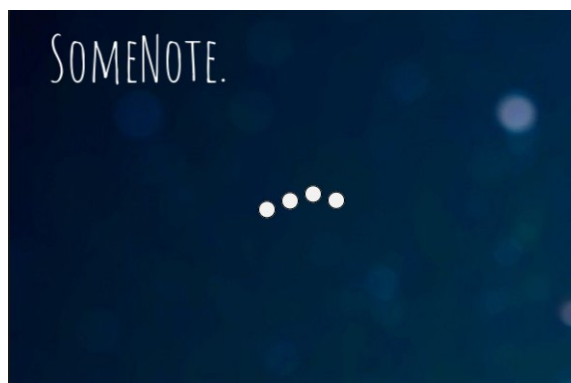

E-notebook with remote connection to database ([www.remotemysql.com](http://www.remotemysql.com)). The interface allows the user to create notes (inspired by Microsoft OneNote) - a semester project from Object-Oriented Programming. I encourage you to review the source code.

### Technologies:

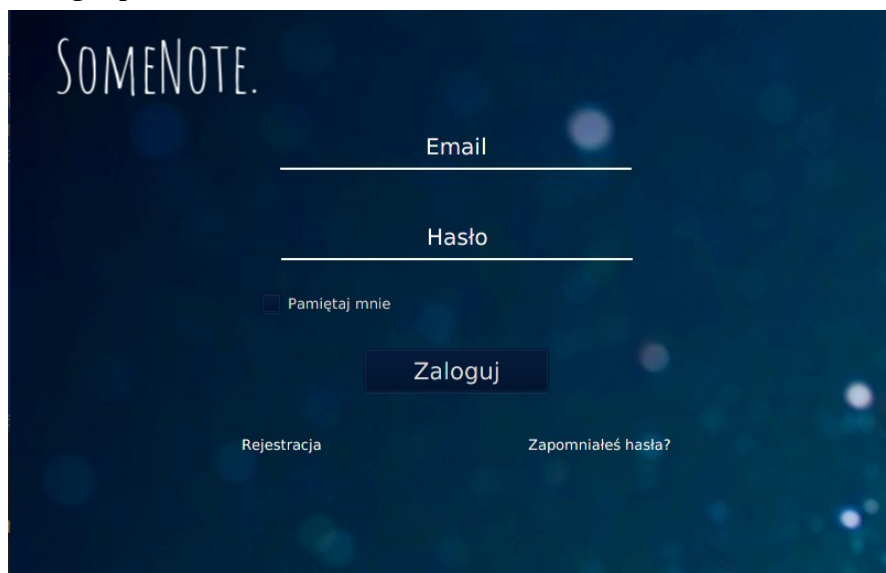

### Interface:

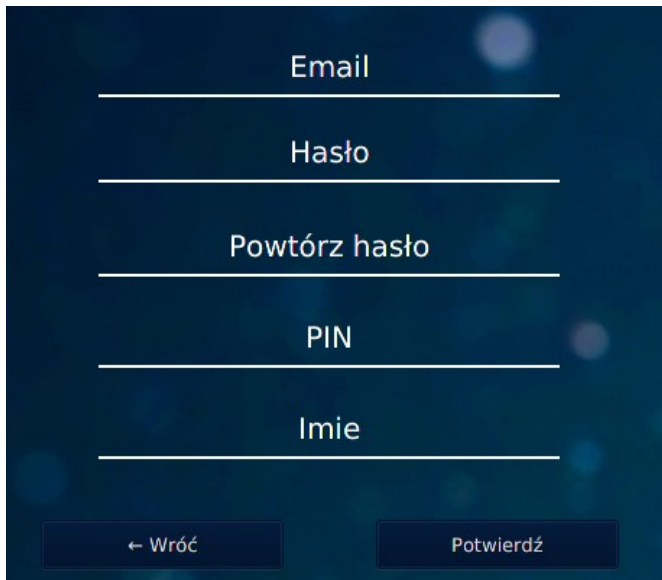

#### 1. Loading screen:

#### 2. Login panel:

### 3. Registration & Simple Forgot password panel:

Registration form with the following fields and buttons:

- Email
- Hasło
